GO PORTFOLIO

goPORTFOLIO

Empowering Member States with Digital Solution to Combat Crime, Drugs & Corruption

goPortfolio – UNODC Software Products for Member States

goPortfolio comprises a set of innovative and evidence-based digital tools developed by the UNODC Software Products for Member States Section (SPMS) to enhance Member States' institutional capacity in addressing organized crime and related challenges.

UNODC SPMS provides IT solutions to key government institutions of Member States, enabling their use within national jurisdictions and contributing to the United Nations Secretary-General's digital transformation agenda.

OBJECTIVES

The objective of goPortfolio is to strengthen the institutional and operational capacity of Member States through innovative, evidence-based digital solutions to address complex challenges across multiple domains.
